Introduction

I am a Frontend Developer with a strong ability to work collaboratively, attention to detail, and a passion for web development. I am skilled in translating designs into interactive and accessible interfaces, and integrating third-party APIs and services to develop complex projects. My personal projects have given me experience working with technologies such as HTML, CSS, Javascript, React, Git, and Nodejs.

As a team player, I thrive in an environment where collaboration and communication are key to success. I am a motivated professional who is eager to contribute to the success of the organization that I am working for.

My skills

- Proactivity
- Analytical thinking
- Team player

Technologies and tools

I MASTER

Git / Github / NodeJS / React / TypeScript / JavaScript / HTML / CSS / Tailwind / NPM
